Dennis Michael Bondy, a ^{Canadian} ~~US~~ citizen and sole inventor of United States Patent No. 6,275,992 B1 and Applicant herein, declares as follows:

1. Applicant believes the original patent to be partly inoperative or invalid by reason of the patentee claiming less than he had a right to claim in the patent.

3. All errors which are being corrected in the present reissue application up to the time of filing of this declaration arose without any deceptive intention on the part of the Applicant.

4. Applicant has reviewed and understands the content of the specification, including the claims, as amended by any amendment specifically referred to in the oath/declaration.

5. Applicant believes the named inventor to be the original and the first inventor of the subject matter which is claimed and for which a patent is sought.

I declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true; and that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
